1. The present application as filed misses numbering claims, it has 13 claims and is contradict to Bib data sheet which lists only 12 claims (claims 1-4 and 4-12). As per rule 1.126, the examiner renumbers claims 1-4 and 4-12 to 1-13, respectively.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The present application relates to detecting unusual events in videos by extracting motion vectors from a sequence of video frames. The prior art of record fails to anticipate nor render obviousness a method for detecting an unusual event in a video, comprising:

extracting motion vectors from each frame in a video;

determine zero run-length parameters for each frame from the motion vectors;

summing the zero nm-length parameters over predetermined time initials of the video;

determining a distance between the sum of the zero run-lengths of a current time interval and the sum of the zero nm-lengths of a previous time interval;

signaling the unusual event if the distance is greater than a predetermined threshold as specified in claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
